# Sample Document

This is a test document for the **Markdown to PDF** skill.

## Features Demo

### Text Formatting

This paragraph demonstrates *italic*, **bold**, ~~strikethrough~~, and `inline code`.

This is a blockquote. It should have a nice blue left border and light background.

— Some Author

### Code Block

```
function greet(name) {  
  const message = `Hello, ${name}!`;  
  console.log(message);  
  return message;  
}  
  
greet("World");
```

### Table

Feature	Status	Notes
GFM Tables	✓	Full support
Code Highlight	✓	via highlight.js
Task Lists	✓	Checkbox rendering
Diacritics	✓	čšžđňláéíóúý ČŠŽŤĐŇĽ
Math (KaTeX)	⚠	Requires extra plugin

## Task List

- Parse Markdown
- Apply CSS styles
- Generate PDF
- Add KaTeX support
- Add Mermaid support

## Diacritics Test

Príliš žluťoučký kůň úpěl dřábské ódy. Zvláštní žluťoučký kůň.

Slovenčina: l'úbiť, šťastie, vŕba, dážď, kôň.

Čeština: příliš, žluťoučký, dábelské, říční.

---

## Second Section

This section demonstrates that `h1` headings trigger page breaks automatically (except the first one).

## Footnotes

This text has a footnote<sup>[1]</sup>.

## Nested Blockquote

Level 1

Level 2 — nested blockquote

That's all! 🎉

---

---

1. This is the footnote content. ↫
